PROFESSIONAL PROFILE

Results-driven technology professional with a strong foundation in software engineering, web development, AI-powered automation, and product execution. Experienced in building modern websites, internal business systems, developer workflows, and digital solutions that combine technical quality with business value. Known for strong ownership, fast learning, structured problem-solving, and the ability to turn ideas into practical, working products.

A Sandweg Branding & Marketing
Position: Head of Product / CTO | Period: July 2025 – Present

- Lead product direction and technical execution across websites, internal systems, and digital experiences.
- Drive development of modern web platforms, user experience improvements, and scalable workflows.
- Oversee technical decisions related to frontend development, backend logic, deployment flows, and optimization.
- Build and guide AI-driven solutions and automations that improve productivity and business operations.
- Translate business needs into practical digital products with clear structure, usability, and impact.

B Central Statistical Office
Position: Intern | Period: 2024

- Supported day-to-day technical and administrative tasks in a structured professional environment.
- Gained experience in data handling, computer operations, and workplace coordination.

SPECIAL SKILLS – PERSONAL

- Highly motivated, disciplined, and reliable with a strong sense of ownership.
- Excellent communication and collaboration skills; able to work effectively both independently and within a team.
- Fast learner who adapts quickly to new tools, systems, and responsibilities.
- Strong attention to detail, structured thinking, and problem-solving ability.
- Product-minded and business-aware, with a focus on real-world results.

SPECIAL SKILLS – PROFESSIONAL

- Full-stack web development with React, Next.js, Vite, JavaScript, TypeScript, Tailwind CSS, Node.js, and Express.
- AI automation workflows including transcription, summarization, developer tooling, and LLM-powered productivity systems.
- Database and backend foundations including MongoDB, API integrations, authentication flows, and system logic.
- Technical SEO, website performance optimization, and online presence improvement.
- Deployment, debugging, and technical support across Linux/Ubuntu environments, Git/GitHub, Docker, Hostinger, and Vercel.
- Strong understanding of UI/UX, maintainable structure, and building systems that are both powerful and easy to use.

CORE COMPETENCIES

Frontend Development

React, Next.js, Vite, JavaScript, TypeScript, Tailwind CSS, responsive UI, animation-aware interfaces

Backend & Systems

Node.js, Express, REST APIs, authentication flows, MongoDB, database handling, deployment workflows

AI & Automation

meeting transcription and summarization workflows, LLM-assisted productivity tools, developer tool integrations, workflow automation

Product & UX

product thinking, user-centered structure, usability improvement, maintainable architecture, problem-solving

SEO & Performance

technical SEO, local SEO awareness, website performance optimization, structured content, conversion-focused pages

Tools & Platforms

Git, GitHub, Docker, Linux/Ubuntu, Hostinger, Vercel, AWS, VPS, VS Code, Postman

PROFESSIONAL STRENGTHS

- ✓ Able to combine technical execution with business understanding and product thinking.
- ✓ Comfortable working across websites, internal tools, automations, and operational workflows.
- ✓ Strong ownership mindset with the ability to take initiative and move work forward.
- ✓ Effective at learning quickly, adapting to new environments, and solving real-world problems.
- ✓ Focused on quality, usability, maintainable structure, and meaningful digital impact.
- ✓ Reliable, disciplined, and committed to delivering value-driven results.
